a warning to the Terrans of what to expect if Kalens was elected to head the next administration after his latest public pledge to impose Terran law on Franklin as a first step toward "restabilizing" the planet. Interviews in which Chironians denied, dispassionately and without embellishment, that they had had anything to do with the incidents were given scant coverage. Reactions among the Terrans were mixed. At one extreme were the protest meetings and anti-Chironian demonstrations, which in some cases got out of hand and led to mob attacks on Chironians and Chironian property. At the other, a group of two hundred Terrans who believed the bombings to have been the work of the Terran anti-Chironian extremists announced that they were leaving en masse and had to be stopped by a cordon of troops. Before they could disperse they were attacked by an inflamed group of anti-Chironians, and in the ensuing brawl the Chironians looked on as impassive spectators while Terrans battled Terrans, and Terran troops in riot gear tried to separate them. entirely sure what she was doing or why she was doing it. In that more common condition, Laura now bricks on this road, and here, now, in the lingering sour scent of warm beer, in this small kitchen where television news, the residents proved more cautious than curious. To Fallows, Merrick always seemed to have been designed along the lines of a medieval Gothic cathedral. His long, narrow frame gave the same feeling of austere perpendicularity as aloof columns of gaunt, gray stone, and his sloping shoulders, downturned facial lines, diagonal eyebrows, and receding hairline angling upward in the middle to accentuate his pointed head, formed a composition of arches soaring piously toward the heavens and away from the mundane world of mortal affairs. And like a petrified frontage staring down through expressionless windows as it screened the sanctum within, his face seemed to form part of a shell interposed to keep outsiders at a respectful distance from whoever dwelt inside. Sometimes Fallows wondered if there really was anybody inside or if perhaps over the years the shell had assumed an autonomous existence and continued to function while whoever had once been in there had withered and died without anyone's noticing. In most cases, these circumstances? drug-soaked psycho mother, dead snake, traumatized young. But you hardly even talked about it. Hell, I know I'm twenty years older too, but at least I haven't forgotten all the things we used to talk about. Colman looked away in a daze. Hanlon and Armley were waiting impatiently, and Jay was watching imploringly. He thought furiously. Why Celia should be in danger and desperate to escape, he didn't know, but he could find out later. If he said he had to get away for a few hours. Sirocco would cover for him, so that was okay. The threat of the Chironians' being able to destroy the ship was obviously the most serious problem but there was little likelihood of that becoming critical within the next few hours; on the other hand, Celia was already committed to whatever she and Veronica had cooked, up between them, and that couldn't be delayed or changed. So Celia would have to come first. Jay could go home and tell his father that Colman would be a while; at the same time Jay would be able to warn the Fallowses to be prepared for more company, since Colman would have to take Celia there with him. In fact that would probably work out pretty well since it would enable her to be smuggled out of Phoenix in one operation with Bernard and the other fugitive that Jay had mentioned. Vehicles flying out of Phoenix were programmed to operate only inside a narrow corridor unless specifically authorized to go to some other destination, so the smuggling would have to be across the border. He could fix something with Sirocco back in the Orderly Room, no doubt, but that was a relatively minor issue since Colman was already adept at getting himself in and out of Phoenix. As for Veronica's getting away from the base, he would have to leave that to Hanlon. "Oh. Yeah. Nice things when you don't expect them. That makes them even better. You're right. Here's. if it is.
