Sitting in Simon Magusson's mahogany-paneled office, reading the

contents of this file, Junior was aghast. "I could have been killed." Only madmen were capable of such butchery. Hopeless lunatics like Ed Gein, out there in Wisconsin, arrested just seven years ago, when Junior had been sixteen. Ed, the inspiration for Psycho, had constructed mobiles out of human noses and lips. He used human skin to make lampshades and to upholster furniture. His soup bowls had once been human skulls. He ate the hearts and selected other organs of his victims, wore a belt fashioned from nipples, and occasionally danced under the moon while masked by the scalp and face of a woman he had murdered. "I'm really not sad, Mom. I'm not. I don't like it this way, being blind. It's ... hard." His small voice, musical as are the voices of most children, touching in its innocence, spun a fragile thread of melody in the dark, and seemed too sweet to be speaking of these bitter things. "Real hard. But being sad won't help. Being sad won't make me see again." He heard her explain that the title of the exhibition had been inspired by one of her father's sermons, which aired on a nationally syndicated weekly radio program more than three years ago. This wasn't a religious program, per se, but rather one concerned with a search for meaning in life; it usually broadcast interviews with contemporary philosophers as well as speeches by them, but from time to time featured a clergyman. Her father's sermon received the greatest response from listeners of anything aired on the program in twenty years, and three weeks later, it was rerun by popular demand. The pendulous bellies of the rain-swollen clouds were no darker than when he had first come to the cemetery, yet they appeared more ominous now than earlier. Not that she ever gave any indication that her brothers were other than a source of pride for her. She treated them always with respect, tenderness, and love-as if unaware of their shortcomings. Tom opened his empty hands and then filled one of them with his water glass. The rattling ice belied his calm face. Edom felt uneasy in this kingdom of a strange god. The god that his brother feared was humanity, its dark compulsions, its arrogance. Edom, on the other hand, trembled before Nature, whose wrath was so great that one day she would destroy all things, when the universe collapsed into a super dense nugget of matter the size of a pea. Needles of rain knitted the air and quickly embroidered silvery patterns on the blacktop. All the way to the nightstand, he expected to discover that the revolver had been taken from the drawer. Yet here it was. Loaded. Whereas Edom feared the wrath of nature, Jacob knew that the true hand of doom was the hand of humankind. This wasn't art. This was pandering, mere illustration, more suitable for painting on velvet than on canvas. Sweaty, chilled, trembling, weak-kneed, watery-eyed with self-pity, Junior spread a plastic garbage bag on the driver's seat. He got in the Suburban, twisted the key in the ignition, and groaned as the engine vibrations threatened to undo him. He vanished through some hole, some slit, some tear bigger than anything through which Tom flipped his quarters. At last he said, "And there he is, hands in front of his face, quarters bouncing off him, these kids and this old lady scrambling around him to snare some change." Shortly after six o'clock, Saturday morning, she stirred from a fretful dream and saw Barty sitting up in bed, reading. Kathleen watched him with obvious amusement, aware that he was savoring her suspense as much as he was the appetizer. Using the brochure as an ice-breaker, Junior circulated through the throng, seeking anyone who'd attended the. He switched on his flashlight. In the beam, on the blacktop, a silver disc. Like a full moon in a night sky. His conscience as a craftsman would not let him fault the carpentry of the ship in any way; but his conscience as a wizard told him he could put a hex on her, a curse woven right into her beams and hull. Surely that was using the secret art to a good end? For harm, yes, but only to harm the harmful. He did not talk to his teachers about it. If he was doing wrong, it was none of their fault and they would know nothing about it. He thought about it for a long time, working out how to do it, making the spell very carefully. It was the reversal of a finding charm: a losing charm, he called it to himself. The ship would float, and handle well, and steer, but she would never steer quite true. Maybe he would get lucky, and an airliner would fall out of the sky right now, right here, obliterating him in an instant. After Bellini left, Tom questioned Celestina extensively, with an emphasis on Phimie's rape. Although the subject was painful, she was grateful for the questions. Without this distraction, in spite of her well of hope, she might have allowed her imagination to fashion terror after terror, until Wally had died a hundred times over in her mind. Later, at home in bed, after Nolly proved the value of oysters, he and Kathleen lay holding hands. Following a companionable silence, he said, "It's a mystery." "Do you know about the earthquake that destroyed seventy percent of Tokyo and all of Yokohama on September 1, 1923?" he asked. The white Buick glided through the tides of fog like a ghost ship plying a ghost sea. "Not so unbelievable," said Jacob. "Forty-five thousand people every year die in automobiles. Cars aren't transportation. They're death machines. Tens of thousands are disfigured, maimed for life." PAUL DAMASCUS WAS walking the northern coast of California: Point Reyes Station to Tomales, to Bodega Bay, on to Stewarts Point, Gualala, and Mendocino. Some days he put in as little as ten miles, and other days he traveled more than thirty. In recounting the fortune-telling session, Agnes had not told the magician about the four jacks of spades, only about the aces of diamonds and hearts. She never wore her worries for anyone to see; and though she had made a joke of the appearance of the fourth knave on Friday, Edom knew that it had deeply troubled her. Dense, white, slowly billowing masses of fog rolled through the neighborhood, scented with woodsmoke from numerous fireplaces, as though everything north to the Canadian border were ablaze. The middle finger on his right hand throbbled under the pair of Band-Aids. He'd sliced it earlier, while using the electric sharpener to prepare his knives, and the wound had been aggravated when he'd had to strangle Neddy Gnathic. He would never have cut himself in the first place if there had been no need to be well-armed and ready for Bartholomew and his guardians. Celestina didn't hear gunfire, but she couldn't mistake the bullets for anything else when they cracked through the door. When Agnes pressed for a diagnosis, Dr. Chan quietly pleaded the need to gather more information. After Barty had seen the oncologist and had additional tests, he and his mother would return here in the afternoon to receive a diagnosis and counseling in treatment options. Celestina stared out for a moment, and then turned her head to look at Tom, with both the shade of the night and the sparkle of the metropolis still captured in her eyes. "What was that all about?". Refusing to give the cop the satisfaction of a reply to the news of the unborn baby's paternity, Junior stared unwaveringly into the grave and said, "Whose funeral were you attending?". "Indeed, you did," said Magusson. "And I dismissed him as a well intentioned crusader, a holy fool. Looks like you had a better take on him than I did, Mr. Cain." Curiosity brought him here. Curiosity and a talent for self-preservation. Earlier, Vanadium had not come to Naomi's graveside as a mourner. He had been there as a cop, on business. Perhaps he had been at the other funeral on business, too. Although he had made no effort to summon them, tears spilled from Junior's closed eyes. They weren't drawn from him by thoughts of poor Naomi. These next few days-perhaps weeks-were going to be tedious, until he could have Nurse Victoria Bressler. Under the circumstances, he had good reason to feel sorry for himself. As the afternoon waned toward a portentous dusk and toward the gallery reception for Celestina White, Junior prepared his knives and guns. No one was surprised by his proposal, her acceptance, and the wedding. Barty and Angel were both eighteen when they were married in June of 1983. Rescuers appeared with hydraulic pry bars

and metal cutting saws. Civilians were shepherded back to the sidewalks..Junior drove them a little crazy by pretending not to understand their intent as they circled the issue like novice snake handlers warily looking for a safe grip on a coiled cobra..Six captain's chairs encircled the big round table, one for everybody, including Agnes, but only Paul and Barty stayed seated..At the bed, he spread the garment across his pillow. Lying down, he pressed his face into the sweater. The sweet subtle scent of Naomi was as effective as a lullaby, and soon he dozed off.. "Salt water would be too cumbersome anyway. He'd have to drink a lot of it shortly before he heaved, but he was surrounded by cops with good reason to keep an eye on him. Does ipecac come in capsule form?".Smiling again, speaking in a voice hardly louder than a whisper, he said, "Got a wedding date to keep..".Naomi, are you in there?" Junior whispered again, peering into the windows of the girl's soul..Junior couldn't leave the dead man in the hall and hope to have any quality time with Celestina..Reflecting upon her son's clever, diligent, and uncomplaining adaptation to darkness, she wished that she had described to him the dazzling sunset under which they had made their journey home. Although her words might have been inadequate to the spectacle, he would have elaborated on them to create a picture in his mind; with his creative skills, the world that he'd lost with his sight might be remade in equal splendor in his imagination..As always, curious about how others lived-or, in this case, bad lived-Junior explored the house, poking in drawers and closets. For a widower, Bartholomew Prosser was neat and well-organized.. "I'll come by at eight o'clock for breakfast," Wally suggested. "We have to set a date..".If her beautiful son was to be a prodigy of any kind, she would thank God for his talent and would do anything she could to help him achieve his destiny..Throughout lunch and, indeed, during his hours as an outpatient at the hospital, Barty gave no indication that he understood the gravity of his situation. He remained cheerful, charming the doctors and technicians with his sweet personality and precocious chatter.. "This is Detective Bellini, with the San Francisco Police Department. Is everything all right there?".People were at the car windows, struggling to open the buckled doors, but Agnes refused to acknowledge them..At first light, a nurse arrived to perform preliminary surgical prep on Barty. She pulled the boy's hair back and captured it under a tight fitting cap. With cream and a safety razor, she shaved off his eyebrows..The painkiller was not morphine-based, and it did not signal its presence in the system by inducing sleepiness or even a faint blurring of the senses. After forty minutes, however, he was sure that it must be effective, and he put the book aside.. "Usually, I throw out a bunch of hocus-pocus, flourishes and patter, to distract people, so they don't even realize that what they've seen was real. They think the midair disappearance is just a trick..".For the first few bites of crab in a light cornmeal crust, Nolly suspended their conversation. Bliss..Three minutes by car, maybe two without stop signs. He could just about run it as fast as drive it. He had a bit of a gut on him. He wasn't the man he used to be. Ironically, however, after the coma and the rehab, he wasn't as heavy as he had been before Cain sunk him in Quarry Lake..The rain-washed street shimmered greasily under the tires, and the intersection lay halfway up a long hill, so gravity was aligned with fate against them. The driver's side of the Pontiac lifted. Beyond the windshield, the main drag of Bright Beach tilted crazily. The passenger's side slammed against the pavement..Agnes rubbed noses with him again, kissed him, and rose from the edge of the bed..Griskin, a former convict, had served eleven years for second-degree murder before the lobbying efforts of a coalition of artists and writers had won his parole. He possessed a huge talent. No one before Griskin had ever managed to express this degree of violence an rage in the medium of bronze, and Junior had long kept the artist's work on his short list of desired acquisitions..Throughout the evening, Barty and Angel-sitting side by side and across the table from Paul-listened to the adults at times and occasionally joined in the larger conversation, but primarily they talked between themselves. When the kids' heads weren't together conspiratorially, Paul could hear their chatter, and depending on what else was being discussed around the table, he sometimes tuned in to it. He picked up on the word rhinoceros, tuned in, tuned out, but a couple minutes later, he dialed back in when he realized that Celestina, sitting two places farther along the table from him, had risen from her chair and was staring in amazement at the kids..Kneeling at her side, Junior placed the decorative pillow over her lovely face and pressed down firmly while Frank Sinatra finished "Hello, Young Lovers," and sang perhaps half of "All or Nothing at All." Victoria never regained consciousness, never had a chance to struggle..He had noted all seven names on the bassinets, but he read them again. He sensed in their names-or in one of their names-the explanation for his seemingly mad perception of a looming threat..The glimmering bay and the shimmering amber candlelight provided the perfect atmosphere for the song that arose now from the piano in the bar..Because the glass wings of the open window didn't lie flat against the exterior wall, they blocked his view. He had to thrust himself farther through the opening, until he seesawed on the sill, before he could see the length of the entire block, in which the gallery stood at approximately the middle..Indeed, Junior suspected that they might be here at Vanadium's urging. The cop would be interested in determining how avaricious the mourning husband would prove to be when presented with the opportunity to turn his wife's cold flesh into cash..When at last the caller spoke again, her voice sounded a kingdom away: "Will you tell Bartholomew ... ?". "If you ranted at him about earthquakes, tornadoes, erupting volcanoes, and all that stuff, how could he mistake you for me?". "Your dad didn't just like Christmas, he loved Christmas. He started planning for it in June. If there wasn't already a Santa Claus, your father would have taken on the job..". "Frozen firing pin," Cain said. His smile was venomous. "I worked on it. I hoped you'd get here in time to see the consequences of your stupid games..". Maria looked stricken when she answered the doorbell, for she intuited that a visit, instead of a call, meant the worst..find reason to celebrate every development in life, including the cruelest catastrophe, by discovering the bright side to even the darkest hour..Celestina hardly knew Paul, and although he'd saved her mother's life, his offer raised a look of doubt from her..No one in Junior's circles seemed to care about the crisis in American music. He supposed he had a greater awareness of injustice than did most people..She asked Edom to stay in the main house, so Barty wouldn't be alone while she visited Maria Gonzalez for an hour or two. He was pleased to oblige, settling down to watch a television documentary about volcanoes, which promised to include stories about the 1902 eruption of Mont Pelee, on Martinique, which killed 28,000 people within minutes, and other disasters of colossal proportions..Without a word, Joshua Nunn and the paramedic retreated to the foyer. The parlor doors slid shut.. "Look at it this way, Aggie. All the pies, all the things you do-that's betting on life. And now you've just been given the great blessing of being able to place larger bets..". Thus armored, he at last arrived in the city of Sacramento, an hour before dawn. Sacramento, which means "sacrament" in Italian and in Spanish, calls itself the Camellia Capital of the World, and holds a ten-day camellia festival in early March-already advertised on billboards now in mid-January. The camellia, shrub and flower, is named for G. J. Camellus, a Jesuit missionary who brought it from Asia to Europe in the eighteenth century..I was hoping you might know," said Edom, studying the collar of Jacob's green flannel shirt.. "I only told you about that," said Grace, "because it was a very handsome shirt, and I thought you might want to get one for Wally..".
