The Book of the Dark, written late in the time it tells of, is a compilation of self-contradictory histories, partial biographies, and garbled legends. But it's the best of the records that survived the dark years. Wanting praise, not history, the warlords burnt the books in which the poor and powerless might learn what power is..Handing Angel to Grace, Lipscomb said, "I own some investment properties. There's a two-bedroom unit available in one of them." The silence in this city of the dead was complete. The night lay breathless, stirring not one whisper from the stationed evergreens that stood sentinel over generations of bones..With some sharp instrument, probably a knife, Cain had stabbed and gouged the red letters, working on the wall with such fury that two of the Bartholomews were barely readable anymore. The Sheetrock was marked by hundreds of scores and punctures..Before he searched the bedroom, Vanadium walked quickly back through the rooms that he had already inspected, suddenly remembering the three bizarre paintings of which Nolly, Kathleen, and Sparky had spoken, and wondering how he could have overlooked them. They were not here. He was able to locate, however, the places on the walls where the art works had hung, because the nails still bristled from the pocket plaster, and picture hooks dangled from the nails..Anyway, if Celestina escaped, there would be a witness, and it wouldn't matter to a jury that she was a talentless bitch who painted kitsch. She would have seen Junior get out of the Mercedes and would be able to provide at least a half-accurate description of the car in spite of the fog. He still hoped to pull this off without having to give up his good life on Russian Hill..Vanadium continued in his characteristic drone, a tone at odds with the colorful content of his speech: "A man takes one look at his wife's body, starts to sweat harder than a copulating hog, spews like a frat boy at the end of a long beer-chugging contest, and chucks till he chucks up blood-that's not the

response of your average murderer." Caesar Zedd teaches that every experience in our lives, unto the smallest moment and simplest act, is preserved in memory, including every witless conversation we've ever endured with the worst dullards we've met. For this reason, he wrote a book about why we must never suffer bores and fools and about how we can be rid of them, offering hundreds of strategies for scouring them from our lives, including homicide, which he claims to favor, though only tongue-in-cheek. Maybe he would get lucky, and an airliner would fall out of the sky right now, right here, obliterating him in an instant. Celestina was better equipped to embrace this transcendental experience for what it appeared to be. She was not one of those artists who celebrated chaos and disorder, or who found inspiration in pessimism and despair. Wherever her eyes came to rest, she saw order, purpose, exquisite design, and either the pale flicker or the fierce blaze of a humbling beauty. She perceived the uncanny not merely in old houses where ghosts were said to roam or in eerie experiences like the one Lipscomb had described, but every day in the pattern of a tree's branches, in the rapturous play of a dog with a tennis ball, in the white whirling currents of a snowstorm in every aspect of the natural world in which insoluble mystery was as fundamental a component as light and darkness, as matter and energy, as time and space. Her mother and father still resided in a world where Phimie was alive. Bringing them from that old reality to this new one would be the second-hardest thing Celestina had ever done. Agnes's sharp intake of breath caused Edom to look up from his nephew's name. Pale, she was, her eyes as haunted as old mansions. As Joey opened the driver's door and got in behind the steering wheel, he said, "Okay?". He smiled. "Those of us who were priests--yeah, we're all a broody bunch. Of the others--not many, but probably more than you think." Tom stared down into the oceanic depths of the city, through the reefs of buildings, to the lamp-fish cars schooling through the great trenches. Ford dealership, which he'd closed for business until three o'clock: lamentations, lunch, and moving reminiscences of the deceased shared among the shiny new Thunderbirds, Galaxies, and Mustangs. That venue would provide Junior with the witnesses he required for his reluctant, tearful, and perhaps even angry concession to the Hackachaks' insistent materialism. Opening the directory to the marker, he found a card tucked between the pages. A joker, with BARTHOLOMEW in red block letters. He was astonished that adoption records would be sealed and so closely guarded when a child was being placed with a member of its immediate family, with its mother's sister. No one had actually been here. And he still didn't believe in ghosts, so he didn't think that a spirit had been wandering his home in his absence. Agnes wanted to reach out and touch him, but she found that she didn't have the strength to raise her arm. She was no longer holding her belly, either. Both hands lay at her sides, palms up, and even the simple act of curling her fingers required surprising effort and concentration. Toward the front of the house, along a hallway suddenly as dark as a tunnel, toward a vague light in the seething gloom. And here a window at the end of the hall. "I want you to adopt the baby." Before they could react, she hurried on: "I won't be twenty-one for four months yet, and even then they might give me trouble about adopting, even though I'm her aunt, because I'm single. But if you adopt her, I'll raise her. I promise I will. I'll take full responsibility. You don't have to worry that I'll regret it or that I'll ever want to drop her in your laps and escape the responsibility. She'll have to be the center of my life from here on. I understand that. I accept it. I embrace it." With the infant in her arms, the heavysset nurse pressed in beside Celestina, who, now, without realizing when it had happened, he had been lowered from his knees to his right side. Head elevated and tilted by one of the paramedics. So he could expel the bile, the blood, rather than choke on it. "Do you know him?" Edom asked, gazing longingly now at the open door, from which Jacob had turned away. "Obadiah Sepharad?" Unable to speak, the girl kissed her and then gently placed her head against Agnes's breast, capturing forever in memory the pure sound of her heart. He hurried into the bedroom and switched on the nightstand lamp, without concern for whether the light might be seen from the street. At her touch, she felt a tension go out of the doctor. His hands slipped from his face, and he turned to her, shuddering not with fear but with what might have been relief. Bressler but no Vanadium. A girl named Angel. Something was wrong here. Something was rotten. Junior opened his eyes and saw that only the second of the two rounds had found its intended mark. The first had cracked through the center of a cabinet door, surely shattering dishes within. Because, since childhood, Jacob had been drawn to stories and images of doom, to catastrophe on both the personal and the planetary scale--from theater fires to all-out nuclear war--he had a flamboyant imagination second to none and a colorful if peculiar intellectual life. For him, therefore, the most difficult part of learning card manipulation had been coping with the tedium of practice, but for years he had applied himself diligently, motivated by his love and admiration for his sister, Agnes. He arrived at the open door, grinning. No Cheshire-cat grin, hanging disembodied on the air, teeth without tabby. Grin with full Barty. He preferred to venture inside the house while some lights remained on. He didn't want to be reduced to creeping stealthily in the dark through strange rooms: The very idea filled his guts with shiver chasing shiver. She walked the corridor until she came to a room with empty beds. Without turning on the lights, she entered, put down the suitcase, and sat in a chair by the window. He closed his eyes to know the kitchen as Barty knew it. The fine aromas, the musical clink of spoons, the tinny rattle of pans, the liquid swish of a stirring whisk, the heat from the ovens, the women's voices: Gradually, denying himself sight, he was aware of his other senses sharpening. Number three on the charts was "Mr. Lonely," by Bobby Vinton, an American talent from Canonsburg, Pennsylvania. Junior sang along. Junior's breath smoked from him as if he contained a seething fire of his own. He felt a sheen of condensation arise on his face, cold and invigorating. Writing came with reading, and in a notebook, he began to make entries about points of interest in the stories that he enjoyed. His *Diary of a Book Reader*, as he titled it, fascinated Agnes, who read it with his permission; these notes to himself were enthusiastic, earnest, and charming--but literally month by month, Agnes noticed that they grew less naive, more complex, more contemplative. The night was holding its breath again, the previous breeze now pent up in the breast of darkness. Bright though they were at all times, Barty's Tiffany eyes shone brighter now with beams of North Pole magic. "Maybe I do feel it." "Making too many wrong choices," Grace White said, "produces too many branches--a gnarled, twisted, ugly growth." Not many men wore hats these days. Since his teenage years, Nolly had favored a porkpie model. San Francisco was often chilly, and he began losing his hair when still young. He couldn't see into the next aisle through the gaps between rows of books, because the shelves had solid backs. Could any spell of magic make,
